

Continuing Education Document

Approval # AP 02-011

Date of Offering: September 18, 2015

Coordinator: Amy Mendenhall, PhD, Director of Center for Children and Families

Title: *Prenatal Substance Exposure and Its Impact on Children*

Presenters: Jody Brook, PhD

Sponsor: The University of Kansas, School of Social Welfare, Center for Children and Families

Location: University of Kansas, Edwards Campus, Regents Center 110, Overland Park, 66213

Relationship to the course: This program content of *Prenatal Substance Exposure and Its Impact on Children* enhances social work knowledge of the impact of prenatal substance exposure on children. The program format and presentation methods of presentation and discussion are consistent with learning content and practice innovations for a grouping of 70 social work and health/mental health professionals.

Objectives:

- Participants will have increased knowledge of the interplay between risk and protective factors for substance exposed newborns.
- Participants will have increased understanding of and ability to identify intervention strategies for working with this population and their caregivers.

Levels of Participants: X BSW X MSW X Clinical

If to be repeated, list dates:

Contact hours for participants: 1 hour

Attach agenda and evaluation instrument
